

# VMRA - D2 Robotic Case Packer

Whether you need single or a multi piece picker we've got you covered. We've designed the VMRA - D2 Robotic Case Packer in two distinct versions, each tailored to align with your unique needs. Experience the future of bagging with our new generation machine, where durability meets versatility. You're not just investing in a machine, you're investing in a legacy of excellence.

 max. speed	single	multi
	60 ppm	160 ppm
 bag weight	< 1 KG	

# VMRA - D2 Robotic Case Packer In Detail

## features

- Robust Welded & Powder Coated Steel Frame
- Allen Bradley or Siemens Controls
- Engineered Robot End of Arm Tooling
- Ignition Based HMI
- Integrated Safety System
- Integrated Vision System
- Toolless Changeover
- Automatic Case Conveyance Width Adjustment
- Storage for 100+ Product Recipes
- Machine Status Lighting
- Remote Diagnostics
- Audible Alarm System
- Modular Design for Future Robot Additions
- Minimal Change Over Time

## options

- Integrated Case Erector
- Integrated Case Sealer
- Integrated Check Weigh & Reject System
- Vertical Packing (Soldier Pack)
- Stainless Steel Frame
- On Board Compressor/Vacuum Blower
- Case Labeling
- ERP Integration
- Additional HMI Interfaces

## specs

**Max Speed**  
60 ppm – single  
160 ppm – multi

**Bag Weight**  
< 1KG

**Med Speed**  
50 ppm – single  
100 ppm – multi

**Bag Weight**  
1KG to 2KG

**Low Speed**  
40 ppm – single  
80 ppm – multi

**Bag Weight**  
> 2KG

**Power supply**  
480V, 3 Phase, 60Hz, 60AMPS
