

VMRA - Sprinter Series Palletizing

Whether you need single or a multi piece picker we've got you covered. We've designed the VMRA - Sprinter Series Palletizing in two distinct versions, each tailored to align with your unique needs. Experience the future of bagging with our new generation machine, where durability meets versatility. You're not just investing in a machine, you're investing in a legacy of excellence.

single	multi
10	40
ppm	ppm

< 25KG

Pallet Build Software | Add and edit pallet patterns on the HMI screen right on the shop floor.

VMRA - Sprinter Series Palletizing In Detail

features

- Allen Bradley or Siemens Controls
- Engineered Robot End of Arm Tooling
- Ignition Based HMI
- Integrated Safety System
- Robot Cell Guarding
- Minimal Change Over Time
- Storage for 100+ Product Recipes
- Machine Status Lighting
- Remote Diagnostics
- Audible Alarm System
- Empty Pallet Corral
- New Pallet Build Functionality from System HMI
- Up to 3,500 lb Pallet Conveyance Load Rating

options

- Integrated Vision System
- Integrated Case Sealer
- Dedicated Vacuum Blower
- Integrated Pallet Stretch Wrapping
- Integrated Pallet Labeling
- ERP Integration
- Additional HMI Interfaces
- Additional Infeed Lanes
- Additional Outfeed Lanes
- Integrated Case Labeler
- Slip Sheet Application
- Bar Code Scanning
- Automatic Pallet Destacker
- Robotic Corner Board Insertion
- Bag Picking Capabilities
- 3,500 to 5,000 lb Pallet Conveyance Load Rating

specs

Max Speed

10 ppm – single
40 ppm – multi

Bag Weight

< 25KG

Low Speed

7 ppm – single
28 ppm – multi

Bag Weight

> 25KG to 50KG

Power supply

480V, 3 Phase, 60Hz, 60AMPS

Configurations

- 1 infeed – 1 Outfeed
- 1 infeed – 2 Outfeed
- 2 infeed – 1 Outfeed
- 2 infeed – 2 Outfeed
- 3 infeed – 3 Outfeed
- 4 infeed – 4 Outfeed

Palletizer Configuration | 1 infeed - 1 outfeed

Palletizer Configuration | 2 infeed - 2 outfeed
